

## *Watch the ordinary become extraordinary...every day!*

Children need their parents to take at least a moment each day to make them feel special and loved, to ***Be There*** for them. It doesn't take time or money. It's as easy as making eye contact, smiling, asking questions and including your children in the daily routines of life.

Teachable moments are everywhere. Be your child's favorite teacher. Connect in meaningful ways and your simple actions will reap immense rewards at home, play and school.

Together we will ***Be There*** for our children.

***Be There*** for a child today.  
*The benefits will last a lifetime.*
