

Directions for Word Wall Activities

Please keep these directions in a safe place. These activities will be sent home often during the year and your child may need some help! Thank you.

Rainbow Writing

1. Print the words in pencil on the left.
2. Print them again in pencil on the right.
3. Trace the words with one color crayon.
4. Trace again using a second color.
5. Remember to spell and read the words as you write them!

Pyramid Writing

Write the words once on each line (5 times total) to form a pyramid.

Ex:

=====
=====
=====
=====
=====

 =

did
did did
did did did

Ladder Writing

Start at the top rung of the ladder and write one letter. Move down the ladder, adding one letter each time until you have written the whole word. Read the letters as you write them and at the end of the ladder, read the word!

Alphabet Tiles

Cut out the letter tiles and glue them on a separate sheet of paper to spell this week's word wall words. Use the capitals only when you need them! Use the blank tiles to make any extra letters you may need.

Word Wall Sentences

Use each word wall word in a first grade sentence (I like **pizza**. is not a first grade sentence, but I like to eat **pizza with cheese and pepperoni on it**. is.) All word wall words (old and new) should be spelled correctly and any other words should be spelled with personal best first grade spelling. Sentences start with capital letters and end with punctuation.
