Parent & Student Resources for Extra Help - Insert

Senior Citizen's Beat - p. 11
Contacts and Calendar - p. 12

Goal Setting 101: HHS's Carrie Buhmann

1. What do I want to accomplish?

I aspire to become a trauma doctor, and I hope to use my medical abilities in third world countries regularly.

2. Who else accomplished the same goal?

Many doctors attend mission trips to other countries in order to enhance the medical care that people are receiving, or in some cases, are not.

3. Who will support me?

My family, friends and school are all very supportive of my goals, and have helped me along the way in any way they can.

4. What skills and resources will I need to accomplish my goal?

I will need around 10 to 12 years of schooling and residencies to become a physician. I have to be very accepting of change, and I must be able to work in high stress environments.

5. What will I have to change in order to achieve my goal?

I have to stay on my toes and be willing to work in stressful situations.

6. What is my plan and how hard will I have to work?

My plan is to attend college and apply to medical school. This will be very difficult, but I'm always in for a challenge! Work, work, work!

7. What small steps can I do now?

I have been accepted to my college of choice, so the next step is to plan my schedule and hit the books! *Meet Carrie at:*

<http://hobart.schoolwires.com/someoneyoushouldknow>

Goal Setting 101: HHS's Noah Smith

1. What do I want to accomplish?

I want to attend Rose-Hulman, Purdue West Lafayette, or MIT. Afterwards, I want to continue and earn a Computer Science Master's Degree.

2. Who else accomplished the same goal?

My mother and grandfather both graduated from Purdue West Lafayette.

3. Who will support me?

I will always be supported by my family. They all do everything they can to ensure my success.

4. What skills and resources will I need to accomplish my goal?

I will need the finances to attend college. I will also need to carry over all the

skills that Hobart High School has taught me, such as motivation, time management, and organization to name a few.

5. What will I have to change in order to achieve my goal?

I will need to build upon the skills I already have to tackle a much more challenging schedule I will be facing in college.

6. What is my plan and how hard will I have to work?

My plan is to put forth all my effort and more to graduate college with distinction.

7. What small steps can I do now?

I can continue to work hard, maintain my GPA, and finish applying for colleges while I complete my final year at Hobart High School. *Meet Noah at:*

CAREER READY INDIANA.ORG

What's the Future of You? The BRAND called YOU!

Today you are **YOU**,
that is **TRUER** than true.
There is **NO ONE** alive
who is **YOUER** than **YOU!**
~Dr. Seuss

“The good news — and it is largely good news — is that everyone has a chance to stand out. Everyone has a chance to learn, improve, and build up their skills. Everyone has a chance to be a brand worthy of remark...”
by Tom Peters

It's this simple: You are a brand. You are in charge of your brand. The brand students are creating today exists in social media. They are leaving digital footprints with every post and photo. Is this the brand they want people to know about them? Colleges and employers may have a different notion when they do a search of a person! How students build who they are, their college/career path and destiny have changed forever.

Tom Peters was right in the book he wrote called *The Brand Called You*. “We are, indeed, our own brand and we must manage our brand with great care. Not in a selfish sense, but as a steward of our talents, gifts, and passions.”

There is no single path to success. And there is no one right way to create the brand called You. Except this: Start today. The School City of Hobart (SCOH) is committed to students creating their brand for college and career success. It starts with teaching our students about the story they have to tell about their commitments at school, home and the community. It will make them unique and demonstrate their talents.

Enter *Career Cruising*, *Harmony* and *Google Apps!* Every student owns their own domain through SCOH—their name.brickies.me. Students can own their digital footprint in a positive, impactful way by using these tools to create a digital portfolio. The following is an example of Francesca Polizotto.

Visit her digital portfolio at her web address <http://francescampolizotto.brickies.me>.

<https://sites.google.com/a/ga.hobart.k12.in.us/francesca-s-digital-portfolio/>

Each tab represents evidence of school, home and community work that is created and demonstrated by the student.

Tools used:

- Google Sites

Rachel Joy Scott was the first person killed at the Columbine High School shooting on April 20, 1999. While her life was tragically cut short, Rachel's shining example of kindness and compassion was not defeated that day. The School City of Hobart has accepted Rachel's Challenge, and we are proud of this district and community initiative to teach our students that they can have an impact in this world!

Rachel's Story

Instead of focusing on anti-bullying, the School City of Hobart is focusing on pro-kindness and respect. Through the various program components inspired by Rachel Joy Scott, SCOH is changing the culture of our schools by teaching students that the actions of just one person can make their school a better place.

ELEMENTARY

Rachel's Story teaches students about her life and adaptations of her writings. By learning about Rachel, students are encouraged to say kind words and do simple acts of kindness.

Elementary Challenge:

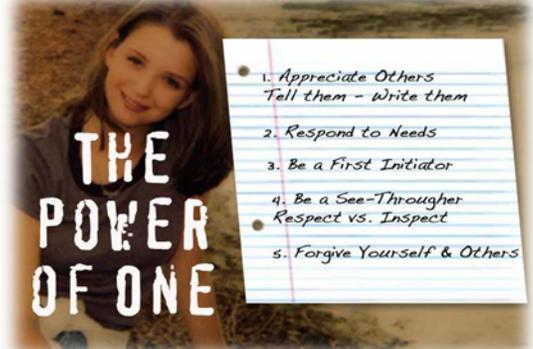

1. Use Kind Words
2. Do Nice Things
3. Include Others
4. Start Your Own Chain Reaction

MIDDLE SCHOOL / HIGH SCHOOL

Rachel's Legacy challenges students to consider the legacy they will create during their lives and takes specific steps to make their legacy a reality. In

doing so, Rachel's Legacy challenges students to believe in The Power of One, and realize they can make a difference by living life by the five guiding statements.

Rachel's Challenge helps students understand the power of appreciating others and realize they can start a chain reaction of

kindness and compassion to positively impact the culture of their school. All School City of Hobart students have accepted Rachel's Challenge!

Continue the Chain Reaction

Students have accepted Rachel's Challenge and are dedicated to starting a chain reaction of kindness and compassion in school. However, now our students have the resources to continue this chain reaction at home, with parents, and in our community. Encouraging your child to continue the chain reaction and talking about Rachel's story will help keep this movement alive. Our students are the adults of the future, and it is so vital that they understand and live a life of kindness and compassion. As Rachel Scott said:

"...people will never know how far a little kindness can go"

RACHEL JOY SCOTT

Brickies **ACCEPT** Rachel's Challenge

Rachel's Challenge is a philosophy of life expressed through strategic, relational programs designed to release the inner desire to treat others with respect. Shortly before her death, Rachel wrote, "I have this theory that if one person can go out of their way to show compassion, then it will start a chain reaction of the same. People will never know how far a little kindness can go."

The School City of Hobart has accepted Rachel's Challenge with the goal of creating a school culture of kindness and compassion and focusing on PRO-KINDNESS.

Friends of Rachel (FOR)

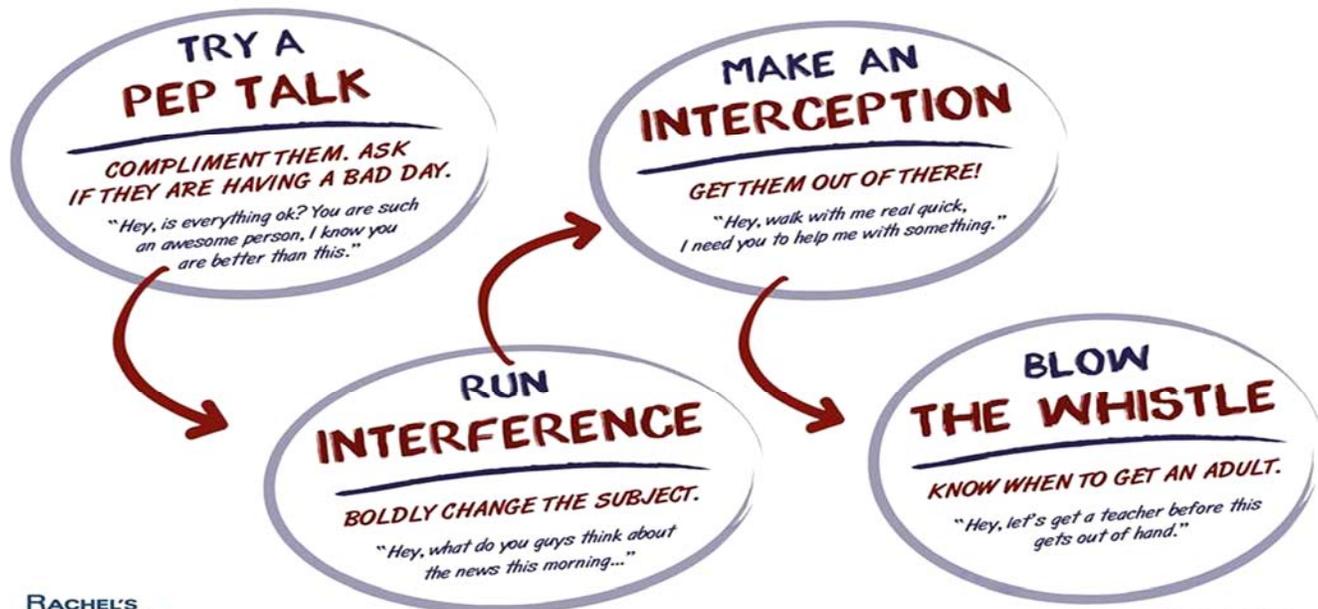

FOR is an opportunity to increase a clubs' effectiveness, get more students involved, and maximize the connectedness between students. It is a group of students dedicated to make a positive impact committed to a culture of kindness, compassion, respect, helping others and reaching out! FOR is ultimately about making the school, community, and world a better place.

FOR Goals

- Become the heart of the school and model kindness and compassion.
- Be the go to people when there is a need at school.
- Welcome everyone at school, especially new students.
- Include as many people as possible, even non-club members.
- Become acceptance monitors– not anti-bullying monitors.
- Participate in service projects that promote kindness and compassion.

CONFLICT RESOLUTION GAME PLAN

RACHELSCALLENGE.ORG

Ideas for Students

PRO-KINDNESS PROJECT

Students can make a difference by doing small acts of kindness on a regular basis. Some ideas are listed below:

- Once a month, express appreciation by targeting a different group of people.
- Practice Positive Gossip

SOCIAL MEDIA PROJECT

- Once a week, make someone's day by posting a positive statement or comment via social media.
- When you notice someone is being cyber-bullied, post a positive comment and begin overwhelming them with positivity.

College and Career Readiness! Know Where Students Are at Every Grade Level and Where Their Growth Goals Should Be to Be on Target!

Proven Tools that Deliver Immediate Actionable Results

Every educator is now involved in transitioning to new standards that are more focused and more rigorous. In every state, the standards lead students to a common goal of college and career readiness. Scholastic assessments provide growth on a single scale to the objective outcomes of college and career readiness, giving educators a clear and immediate view of what students know and can do, and what to teach next. To become aware of a student's next step, scores and reports will be shared with parents in report cards. The College & Career Readiness report will be shared with each parent/child to plan for his/her future.

Scholastic Reading Inventory (SRI) is a research-based, computer-adaptive assessment that measures reading comprehension on The Lexile Framework for Reading. SRI reports in Lexile measure (L) and accurately shows growth over time from a beginning reader level (BR) to graduate school level reading (1725L). SRI enables educators to monitor students' progress against benchmarking calibrated to college and career readiness goals (1355L), so intervention can come before it's too late. An example of the report is found on the next page.

Scholastic Math Inventory (SMI) is a research-based, computer-adaptive assessment that provides a direct measure of students' readiness for math instruction on the Quantile Framework of Mathematics. SMI reports in Quantile measures (Q) from the level of Emerging Mathematician (EM-0Q) through Algebra I (1250Q). By tracking through Algebra I (1030Q), SMI provides educators with key data for placement, instructional grouping, differentiation, intervention, and acceleration in preparation for college and career readiness (1400Q). Parents will receive the College & Career Readiness chart for SMI in grades K-8. An example of the report is found on the next page.

SRI is utilized by K-12 students.

The **K-12 Foundational Skills Assessment** will help educators monitor developmental foundational skills providing a fluency score. This will measure fluency – both accuracy and efficiency – of students' responses to foundational skills.

- Phonological Awareness
- Letter Name and Letter Sound knowledge
- Sight Word Reading
- Non-words

The **K-12 Reading Comprehension Assessment** provides a Lexile measure that reflects a student's level of reading comprehension.

What is the SMI Assessment?

The SMI assessment is designed for students Kindergarten through Algebra II.

- It is a computer adaptive assessment.
- Audio is available in both English and Spanish
- SMI is used to determine current readiness for math instruction and allows teachers and students to set growth targets based on immediate actionable data.
- Assessment is measured in Quantiles. A student's quantile indicates what he/she is ready to learn in math.

K-2nd Grade Assessment

Screens for Early Numeracy and Basic Fact Fluency that identify need Early.

3rd - 8th Grade Assessment

Identifies Basic Fact Fluency and readiness for Math instruction through Algebra II.

Know your child's Lexile and Quantile Score!

Make a Growth Goal!

Set a Quantifiable Trajectory to College & Career

Scholastic Reports

The SRI and SMI assessment measures are based upon national levels.
These levels are broken down into four performance levels.

***Advanced:** Student scoring in this range exhibit superior performance on grade level appropriate skills and concepts.
***Proficient:** Students scoring in this range exhibit competent performance on grade-level performance skills & concepts.

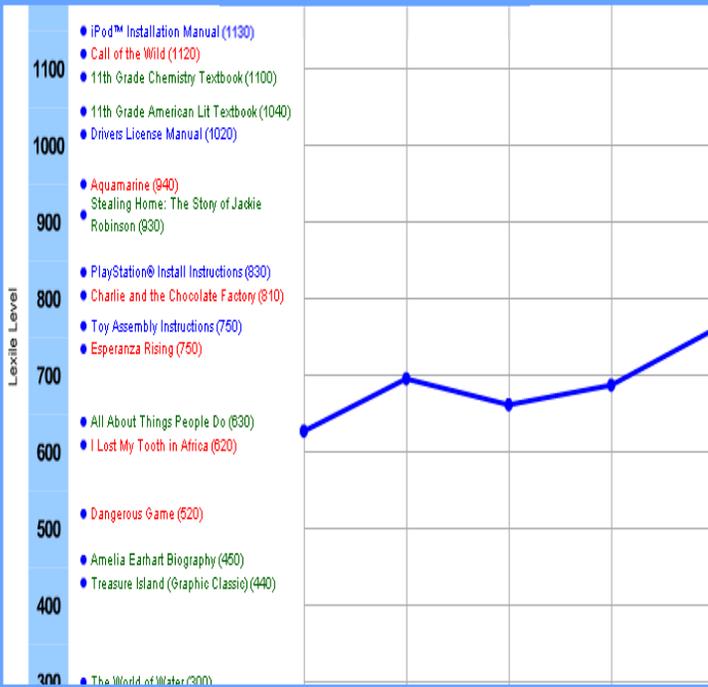

***Basic:** Students scoring in this range exhibit minimally competent performance on grade level skills and concepts.
***Below Basic:** Students scoring in this range do not exhibit minimally competent performance on grade level skills and concepts.

How the SCOH staff is using the SRI and SMI results

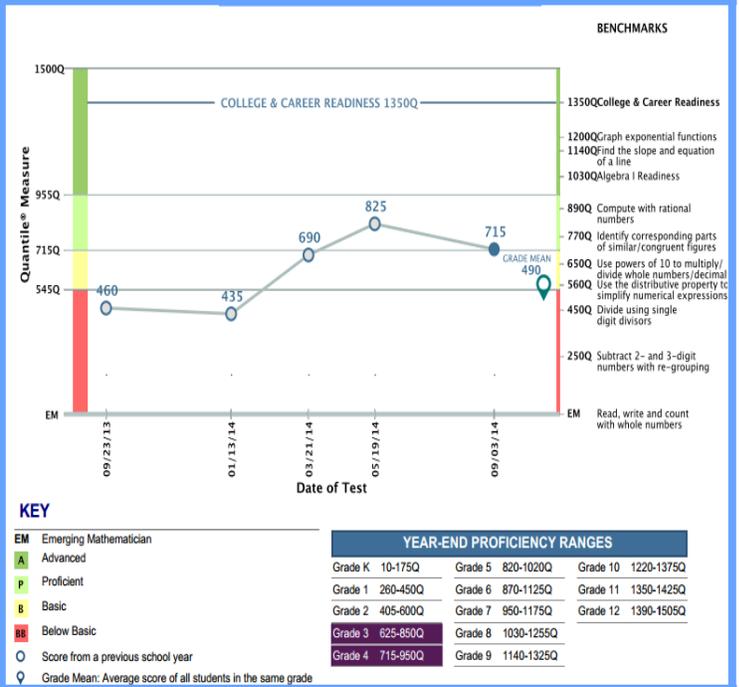

**Instructional Recommendations are focused on critical foundations. Support is provided to students based on results and classroom performance. SMI & SRI are the best way to gauge your students' readiness for math & literacy instruction, and identify which foundational skills teachers may need to rebuild.

**Focus on Critical Foundations: Letter & Number ID, Phonics, Fluency, Comprehension, Attending to Precision.

| Grade 4 715-950Q | Grade 9 1140-1325Q | |

READ! READ! READ!

SCOH encourages families to read nightly and work to achieve fluency and comprehension of all different types of text.

As you read together, stop and talk about the characters, theme or topic and any words that are unknown.

Math Practice is Essential for All Students!!

All K-12 students should practice facts that are age appropriate. Students must master addition, subtraction, multiplication and division facts.

Practicing these skills are essential for all ages.

Scholastic Resources for Home

Join us on **October 23rd from 6 pm - 8 pm** at the Avalon in Hobart for a terrific event held by the Hobart Educational Foundation.

This event helps raise funds for grants, scholarships and other events to recognize our outstanding students!

Come enjoy the silent auction, great food, and meet and mingle with your friends and family! Tickets are \$30.

Stop by any main office or the Administration Office to purchase your ticket. Any Questions? Call 942-8885

Hobart High Schools Fall Musical **Cinderella!**

This fall come enjoy one of the best known stories, Cinderella. Maybe the glass slipper will fit you!

Showings:

November 14th, 15th, 21st and 22nd
7:30 pm

November 16th

Sponsored by the Legacy
2:00 pm Appetizers
3:00 pm Show Time
(Registration is required for this date, please see page 11.)

The School City of Hobart's Parent Workshops

Why Try?

Parenting Program:

Motivate Your Child to Be a World Changer

NOVEMBER 6th

Ridge View Elementary School
6:00 pm - 7:30 pm

Why Try lessons are taught in grades 4-12. Why Try teaches individuals how to set goals in the workplace, school and at home by building support systems, resisting peer pressure, and developing resiliency in ways that youth understand and remember. Why Try provides tools to help students change patterns of failure and indifference and develop motivation to reach goals.

Learn how to engage with Why Try at home with your child!

“Bullying”

OCTOBER 28th

6:30 pm - 7:30 pm
Joan Martin Elementary Library

This workshop will educate you in Indiana's bullying law. It will explain what bullying is and is not, building components to prevent bullying behavior and tips to give parents on how to help their children. It is based off the book “There are No Bullies” by Joe Coles and Darrell Scott

“High Ability”

NOVEMBER 5th

6:00 pm - 7:00 pm
Joan Martin Elementary

This workshop will help define the characteristics of students in high ability, explain the different ways in which they learn and the emotional challenges that High Ability students may face. It gives parents tips on ways to help their children grow. It's based off the book “Helping Gifted Children Soar” by Carol A. Strip, Ph. D. with Gretchen Hirsch.

Mobile Devices & Social Media Workshop

NOVEMBER 11th

Hobart High School Board Room
6:00 pm

The world is mobile through thousands of different devices and we are all connected through social media online from those devices. No doubt your children have a presence online, but is the presence positive? There is so much to know, it can be mind boggling. Join us for this workshop and we will introduce you to mobile devices and connectivity, give you tips on how to handle iPads and all

phones in your home, and we'll discuss social media and how to keep your kids safe.

Senior Citizen Beat!

The School City of Hobart invites senior citizens from the community of Hobart to join us for some entertainment, health and educational events! These events for Hobart's Senior Citizens are made possible by the generous support of the Maria M. Reiner Senior Citizens Trust, a fund of the Legacy Foundation, Lake County's Community Foundation. In addition, all programs are sponsored by the School City of Hobart in conjunction with the HHS Performing Arts Department, the HHS Emergency Rescue Technology Academy, the Technology Department and the HHS Key Club.

Please join us for these FREE entertainment, health screening, and educational opportunities!

Education

The Brickie Cove Book Club, which consists of community senior citizens and HHS students, will meet every month in the HHS Media Center - Enter Door #1 - from September through May on the 3rd Wednesday of the month from 2:45 pm - 3:45 pm!

Health

Starting October 13th, residents of the School City Of Hobart are invited to take advantage of the track at the HHS Frank Kurth Fieldhouse. Simply enter Door #18 and show your driver's license or state ID as proof of residency, Monday - Thursday 6:00 am -7:15 am and 5:30 pm - 7 pm when school is in session. Athletic competitions and inclement weather may force

canceling. Please watch for signage.

Walk-ins are Welcomed!

Class Work = GPA = SAT = College & Career Ready

The equation is simple and the School City of Hobart is committed to Helping each Student.
Completed Class Work = a high GPA = Knowledge to perform well on standardized tests like SAT = College and Career Readiness (CCR)

How to Get HELP Achieving College & Career Readiness

K-12 RESOURCES

COMPASS LEARNING

Students can complete activities at home via the school webpage. These activities vary by grade, but provide students additional practice to reach their academic goals.

Go to www.hobart.k12.in.us. Once at the homepage, go to the right hand side under COOL TOOLS and click on Compass Learning Odyssey.

KHAN ACADEMY

Khan's library of videos covers K-12 math & science topics such as biology, chemistry, and physics, and even reaches into the humanities with playlists on finance and history. This is an excellent way for students to reinforce a concept or get online tutoring!

Visit the Khan Academy at www.khanacademy.org

HOMEWORK HOTLINE

Rose-Hulman Institute of Technology's Homework Hotline provides FREE math and science homework help to Indiana students.

TOLL FREE
1-877-ASK-ROSE
www.askrose.org

ELEMENTARY

OPEN COMPUTER LABS

Several of the elementary schools offer their computer labs to families in the evening to work on homework or just play games. Evenings vary by building.

MASTERY CLUB

In several classrooms, students stay after to retake tests, complete missing work, and reinforce skills / class material.

DISTRICT WIDE TUTOR LIST

Parents can hire a certified teacher to tutor during the school year or summer. Contact the district office for more information at 942-8885 ext.8901.

For additional information, please contact your child's school!

MIDDLE SCHOOL

TEACHER ASSISTANCE

Numerous HMS teachers have times that they volunteer to stay after and offer students additional assistance.

OPEN LABS

HMS students can stay after school Mon.-Thurs. to utilize the computer lab.

HIGH SCHOOL TUTOR LIST

For a minimal price, middle school students can pay a high school student to tutor them after school hours.

For additional information, please contact Hobart Middle School at 219-942-8541.

HIGH SCHOOL

STUDY TABLES

Many athletic teams have study tables scheduled throughout the year. In addition, students volunteer to tutor after school hours. These study tables are held after school on Mondays in the Board Room. If you would like to attend, sign up for a day in the HHS main office!

PEER TUTORING PROGRAM – STEP

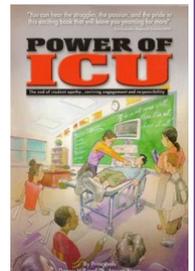

The Student Tutoring Educational Program is available to high school students who need extra help in class. Sign up in the HHS Student Services office.

K-12 RESOURCES

POWER OF ICU

ICU stands for Intensive Care Unit, just like the hospital. ICU is a communication tool, a shared, school-wide approach that tracks missing student assignments. This helps teachers and administrators communicate with each other as well as with the students and their parents. Students learn quickly that if they have one missing assignment, their grade is sick and needs attention.

A zero is detrimental to a student's GPA.

Furthermore, this doesn't demonstrate what the student actually understands. **Incomplete work and zeros are unacceptable.**

Students will be given additional time to complete assignments so that the teacher knows what the student understands.

ICUs have been established to move students grades from being "sick" to healthy.

More specifically, students are learning and demonstrating what they understand rather than just accepting a zero for not completing work.

Join Harmony Parent Portal Notification (HPPN) to receive emails and text when your child has a missing assignment. See directions on the next page!

See the next page for the PARENT'S GUIDE to Scales and Rubrics!

Progress Monitoring Works!

★ It is as EASY as 1-2-3-4 ★

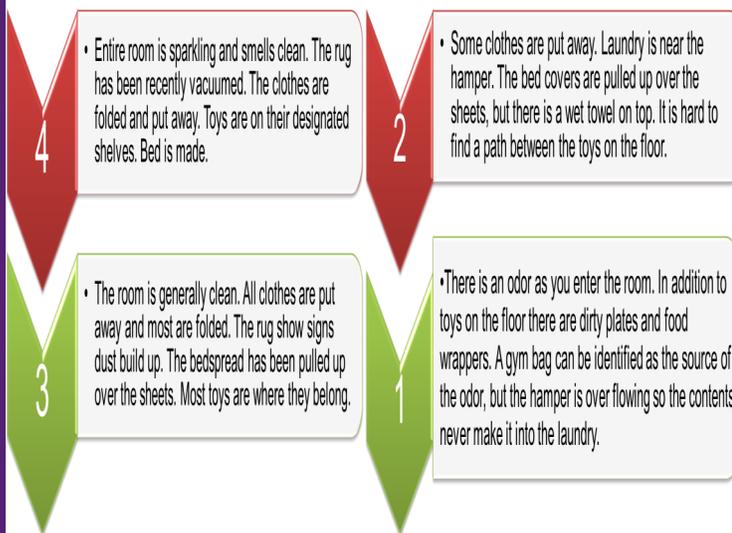

Parent's Guide to Scales and Rubrics

What are "Scales and Rubrics," and why do we need them? Quite simply, scales and rubrics are tools that teachers, students, and parents can use to assess and track student progress on a "Learning Goal" throughout a unit of study. A scale is like a mini-progress report, in that students mark where they think they are in the learning process by giving themselves a 0, 1, 2, 3, or 4. A scale is more interactive than a progress report because it is not the past learning performance we are watching...it is the present! Students can seek extra help when they know they rated themselves a 0, 1, or 2 marking. They can feel confident they have it with a 3 or 4 marking!

How can you talk to your child about learning goals, scales and rubrics?

1. Ask your child what his/her learning goal is in any given subject. Even the littlest Brickies will be able to explain a learning goal!
2. Ask your child where s/he is on the scale for a particular learning goal. A "three" is proficient, and a "four" is above and beyond. Talk to your child about moving up the scale if they are a "one" or "two."
3. Ask your child to show you one of his learning scales. You will be amazed at some of the data tracking our students are doing. Learning is evident!
4. Parents may find scales useful at home in terms of chores and allowance or talking to a child about behavior at a store or restaurant. See an example of a "Clean Room."

A Clean Room Scale for Parents – Try It!

Progress Monitoring Tools

Here are some Progress Monitoring Tools that parents can use in order to assist their child with extra support.

On a Daily Basis:

Check your Child's Planner. If your child is not writing his assignments in it, encourage and require him to do so! Many parents require their children to write their assignments down, and this type of accountability is quite helpful!

On a Daily or at Least a Weekly Basis:

Harmony Parent Portal Notification (HPPN): Keep up-to-date with your child's attendance, grades and discipline with the new **Harmony Parent Portal Notification (HPPN)** system!! Now you can provide your email address and/or text number and we will notify you daily or weekly with automated updates regarding your child's information. Do you want to know when your child has missed an assignment? Then this notification system is for you! Visit the district website, www.hobart.k12.in.us, then click on "**My Notification Profile**" after you login to the Harmony Parent Portal.

Log into Harmony: Logging into Harmony each week will keep you updated on grades recorded in a teacher's grade book & provide you with an overall progress in each class. Many parents check Harmony routinely on Thursday & Friday so that they know their child's status going into the weekend. Please check all tabs in Harmony, such as "Attendance" and "Discipline". This type of accountability works well!

On a Quarterly Basis:

Progress Report: You will receive a progress report at the 4th week of each quarter. It is a great way to monitor your child's overall progress and a time that you may want to contact a teacher with questions about further support at home.

Report Card: You will receive a report card at the end of each nine-week grading period. There will be 4 report cards each year. It is a great way to monitor your child's overall progress and a time that you may want to contact the teacher with questions about further support at home.

SRI (Scholastic Reading Inventory): Your child will take the SRI test 3 times a year. This test gives students their Lexile numbers (reading levels). Ask your child what his/her current SRI score is. Students have their scores, and if they forget them, they can ask their teachers. The goal is to raise the Lexile reading level every quarter.

SMI (Scholastic Math Inventory): Your child will take the SMI test 3 times a year. This test gives students their Quantile numbers (math readiness level). The Quantile Framework for Mathematics comprises more than 500 skills & concepts taught from K-Algebra II. The SMI brings together what students understand about math and the next steps for instructing students. Ask your child what his/her current SMI score is. Contact the your child's school if you are unaware of your child's SMI score.

Career Cruising: Logging into Career Cruising to monitor progress on the College and Career "PLAN".

Three Times a Year:

Acuity Test Grades (Grades 3-8 ELA & MA) (Soc. St. 5th, 7th and Science 4th, 6th)

These tests are administered three times a year. They are utilized by our teachers to help students to prepare for ISTEP+ & ensure students are mastering IN standards. Ask your child or teacher about his/her Acuity scores. Make a goal to improve each time the test is given.

Annually:

NWEA, ISTEP, ECA, ReadStep, PSAT & SAT—Standardized Tests: These tests are given as a summary of learning for the year. Passing these tests or being at or above the college and career benchmark is critical.

Forever:

Transcripts are records of grades, test scores, and citizenship.
